Are you willing to be my running-mate?

Vision

Whilst adhering to our ethos and global goals, I envision a better, imperfect world with a more equitable society, that is: sustainable, less ignorant, less incorrect, and “less idiotic”; an imperfect world where “shit” is handled correctly.

Ethos

1. Our planet
2. Us
3. Our sentiments

ISIS

Problem

Think of ISIS for what it is, a gang; similar to the Mafia.

[Jihad] recruits tend to be persons living abroad,

“
...Algerians living in expatriate enclaves in France, Moroccans in Spain, or
Yemenis in Saudi Arabia. Despite their accomplishments, they had little standing in
the host societies where they lived.”

Solution

Preemptively target would be recruits natively and abroad with: anti[-jihad] organizations, communities, education, and role-models.

Enlist the help of would be recruits to help with the community and have the community be receptive and reciprocate; be: compassionate, engaging, friendly, and respectful.

“Why? Why Does Society Need To Foot The Bill For This?”

Society has the problem with terrorists attacks.

Global Goals

- I. We will live in a world where nobody anywhere lives in extreme poverty.
- II. We will live in a world where no-one goes hungry, no one wakes in the morning, asking if there will be food today.
- III. We will live in a world where no child has to die from diseases we know how to cure and where proper healthcare is a lifelong right for us all.
- IV. We will live in a world where everyone goes to school - and education gives us the knowledge and skills for a fulfilling life.
- V. We will live in a world where all women and all girls have equal opportunities to thrive and be powerful and safe. We can't succeed if half the world is held back.
- VI. We will live in a world where all people can get clean water and proper toilets at home, at school, at work.
- VII. We will live in a world where there's sustainable energy for everyone – heat, light and power for the planet without destroying the planet.
- VIII. We will live in a world where economies prosper and new wealth leads to decent jobs for everyone.
- IX. And we will live in a world where our industries, our infrastructure and our best innovations are not just used to make money – but to make all our lives better.
- X. We will live in a world where people live in cities and communities that are safe, progressive, and support everyone who lives in them.

I, MATHEW L. TYLER declare under penalty of perjury under the laws of the USA that the foregoing is true and correct to the best of my knowledge and abilities. (28 U.S.C. §1746)

XI. We will live in a world where we replace what we consume – a planet where we put back what we take out of the earth.

XII. We will live in a world that is decisively rolling back the threat of climate change.

XIII. We will live in a world where we restore and protect the life in our oceans and seas.

XIV. We will live in a world where we restore and protect life on land - the forests, the animals, the earth itself.

XV. We will live in a world with peace between and inside countries, where all governments are open and answer to us for what they do at home and abroad - and justice rules, with everyone equal before the law.

XVI. And we must live in a world where all countries and we, their people, work together in partnerships of all kinds, to make these global goals a reality for everyone, everywhere.
